

CAMPO LRTP Goal & Project Prioritization Public Comments

LRTP Public Open House September 26, 2016

Intersection of Rocky Ford and Marr Road needs improvement – maybe a stoplight? Or a roundabout? Thanks for a great open house. Much appreciated.

I love the workshop setup. It is a great way for the public to be involved in the planning process.

A walkable, bikeable route to the fairgrounds needs to be a priority. Possibly combined with project C8 [CR 150 W extension between CR 200 S & SR 46].

There should be some system or program put in place to maintain existing infrastructure. Also, information should be put out to people about keeping sidewalks clear and unobstructed. There should also be a system for supervising construction zones.

Fix lips at bottom of curb cuts.

Put concrete pad under benches along People Trail.

Accommodate wheel chairs at bus stops.

There is not a good way to maneuver a wheelchair to access the crossing button at 10th St & National Rd by Chick-fil-A.
